

Customer Success - National Beauty Retailer

EnterpriseDX enables customer's existing system to reduce energy spend by 10%

Customer

The customer is a beauty retailer of cosmetics, fragrance, skin care and hair care products operating thousands of retail stores across the United States.

Challenge

Customer was looking for a way to strategically manage their entire enterprise, improve compliance for temperature and humidity standards while reducing energy spend and consumption.

Result

By launching EnterpriseDX, the customer was able to improve compliance with state and local indoor air quality requirements, improve the comfort of mask-wearing employees and customers from both a temperature and humidity standpoint AND saved energy and money!

10%

reduction in energy spend

100%

stores managed with EDX

DELIVERED

compliance for temp and humidity
